Educational.

To the Patrons of the Ironton Public School.
Next Tuesday afternoon, 27th inst., we will
have public exercises to which all are urged
to come. We expect to see many parents
out. Don't disappoint us. You can come
to see us once a month if not oftener. Among
other things we will read the scholarship
and department of the pupils of the Inter-
mediate and Principal's Departments for the
first and second months of October. These
exercises will occur the last Tuesday in every school
month, notice of which will be given in the
REGISTER and through the school.

To the Teachers of Iron county: Satur-
day morning, November 8th, you are re-
quested to meet at the public school build-
ing in Ironton, for the purpose of organizing
a Teachers' Association and also a Teachers'
Reading Circle. Remember the time.
Don't fail to come.

Let us have a tabulated report of the
schools of the county to be furnished the
REGISTER for publication at the beginning
of each calendar month. Send to me on a
postal card the following items and I will
arrange for publication: 1. Name of teach-
er. 2. Name of school or number of district.
3. Enumeration last June. 4. Enrollment
for the month. 5. Average attendance. 6. No.
of cases of tardiness. 7. No. of cases of tru-
ancy. Send your reports for October. These
items will be of interest to the whole county.
Your schools open at certain hour or should.
If pupils come in after this time they must
be marked tardy, though they bring a valid
excuse for their tardiness.

PRACTICAL EDUCATION.

Many say they want practical education
for their children, and when they say this
they refer to the branches taught. Many
say they do not want their children to study
geography, history, grammar, &c., because
they do not expect them to use the knowl-
edge obtained from these branches. Prac-
tical education, is that which teaches pupils
to think; that which exercises the faculties
of the mind. Doubtless there are many in-
dividuals who would cry out against the
study of botany, geology, and zoology on the
grounds that they are not practical, when
the truth is, nothing is more practical than
these branches for the reason that they call
into vigorous exercise nearly all the facul-
ties of the mind. The main point in this
question is not particularly what the pupil
studies but how he studies it. Thoroughness
is practically. Undigested food does the
body no good, but harm, so unassimilated
knowledge weakens rather than strengthens
the mind.

J. B. SCOTT.

Though numerous causes may operate to
turn the hair gray, all that is needed to re-
store the natural color is Hall's Vegetable
Sicilian Hair Renewer. For more than
twenty years its sales have been enormous,
but we have yet to learn of its first failure.
